2005 DIMA Innovative Digital Product Awards announced

ORLANDO, Fla. – Out of the hundreds of digital products on display at the PMA 2005 Convention and Trade Show in Orlando, FL., USA, 17 have been selected by digital imaging editors and writers to receive the prestigious DIMA Innovative Digital Product Award. The annual award is one of several events sponsored by the Digital Imaging Marketing Association (DIMA), a section of PMA®.

An Innovative Digital Product of PMA 2005 was defined by the judges as a product utilizing new technologies and/or applications in such a way as to make it either unique or the first of its kind. These high-quality products must show themselves to be an influence on the future of digital imaging. The product may be hardware or software, amateur or professional, photographic or prepress, or any other segment. The judges were simply asked to cover the PMA Sneak Peek and PMA Trade Show floor with an eye to the innovative.

Companies honored for their innovative digital products, in alphabetical order, are:
